Installation Manual

The project requires python 3. If you do not have python 3 you can download it here.

<https://www.python.org/downloads/>

The project requires the following libraries.

In PyCharm go to file -> settings -> project -> project interpreter -> click on the + button -> search for the packages listed and install.

Library Name	Version
pyqt5	5.10.1
geopy	1.18.1
matplotlib	3.0.3
